

Concordance®

Improve Your Discovery, Strengthen Your Case

With a completely revised, highly intuitive interface, Concordance® 2007 empowers you to work more easily and effectively than ever before. This revolutionary release delivers faster case access, streamlined e-discovery, and document searching that's so advanced, it's actually simple.

Whether accessing documents from your desktop, laptop, or the web, Concordance 2007 delivers award-winning, industry-leading features that turn electronic discovery as you know it, into discovery as you want it.

Use Concordance to:

- Organize, Search, Review, and Produce Discovery Documents
- Identify Key Documents for Trial
- Prepare Witness Kits
- Print Chronology Reports
- Generate Transcript Digests
- Manage Email and Electronic Documents
- Maximize Scanned OCR Text
- Access Information from Anywhere
- Share Data with Other Industry-Leading Applications
- And Much More

POWERFUL LITIGATION FEATURES

Unrivaled Litigation Capacity

Industry-leading capacity makes importing and managing volumes of electronic data and scanned OCR text pain-free:

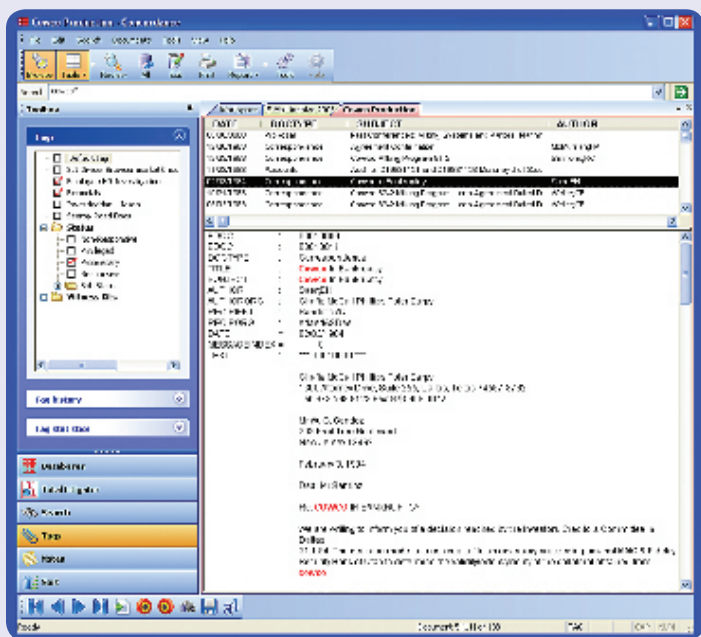

- Sizeable .5 terabyte capacity per database with unlimited database creation
- Accommodates 12 megabytes (approximately four copies of Tolstoy's *War and Peace*) per field
- Handles over 33 million records per database with the ability to search over 4 billion records at one time
- Allows 250 customizable fields per record for unparalleled flexibility

Technologically Advanced Document Searching

Concordance software includes one of the most powerful and intuitive search engines in litigation, so you can pinpoint key evidence with confidence:

- Conduct Boolean, fuzzy, wild card, relational, and concept searches
- Instantly find any word, phrase, date, email address, document type, etc.
- Save and re-run searches on up to 128 databases simultaneously

- **New!** Simple Search technology allows non-technical reviewers to quickly and effectively locate key documents with little prior experience
- Pinpoint hard-to-find evidence using advanced search techniques and a simple fill-in-the-blank form
- Transform jumbled, misspelled OCR and coded text into valuable, searchable data with the innovative Synonym Builder
- Conduct relevant searches to uncover additional evidence and duplicate documents using Synthetix technology by Syngence
- **Exclusive Integration!** EverQuest's Cognition® allows litigators to search on the meaning of words and find conceptually similar matches, delivering results that dig deep and find more

Streamlined Discovery Management: experience easier navigation and document organization with Concordance 2007

Collaborative Case Analysis and Organization

A completely redesigned and highly intuitive user interface delivers easier navigation, resulting in greater efficiency and improved case organization:

- Single search, review, annotation, and organization screen saves time and facilitates effective classification of documents
- **New!** Expanded organizational management with statistics allows you to quickly see when changes were made to document tags (e.g., additions, deletions) and by whom
- Multi-level subject foldering allows users to organize their tags in hierarchical groups, for ease of review and categorization by public or private
- Comment on evidence, add notes and issue codes, identify potential trial exhibits, and arrange by frequency
- Collaborate and share analysis with your team
- **Enhanced Integration!** In one step, case facts (chronologies, case notes, etc.) can be instantly transferred between Concordance and CaseMap®, either by sending one fact at a time or an entire document set, to increase lawyer productivity

Comprehensive Transcript Management

Effectively manage transcripts and other long documents:

- Simple bulk import and export of plain text (ASCII) and LiveNote® PCF files, which retains the original formatting and saves headaches
- “Go To” any document, page number, or line number with a single mouse click
- Easily add and search notes, issue codes, and quick-marks
- Hyperlink directly to trial exhibits for improved case preparation
- Create and print reports, Q&A pairs, transcript digests, lawyer notes, and much more

Streamlined E-Discovery

Import, search, and organize email and other electronic documents quickly and accurately:

- **Enhanced Email Wizard** directly imports Microsoft® Outlook® files retaining original formatting, metadata, hyperlinks to native documents, and parent-child relationships between emails and their attachments

FYI™ Extends the Power and Reach of Concordance

FYI is designed to extend the powerful functionality of Concordance and Concordance® Image software beyond the desktop and onto the web. FYI maximizes the flexibility of the Internet without sacrificing performance or functionality:

- **Same Environment, No Learning Curve:** Authorized users can access a remote database as easily as if it were stored on their PC or local network
- **Easy Setup and Admin:** FYI software is maintained from a central server location. There's no need to configure individual desktops, making it simple to administer and use
- **Increased Collaboration:** Remote offices, co-counsel, clients, and expert witnesses can collaborate and review evidence in real time without sacrificing the integrity of case data
- **State-of-the-Art Security:** Case data is fully protected while being shared internally and externally

- Electronic Document Wizard makes it simple to load and search Word, Excel®, PowerPoint®, WordPerfect®, PDFs, HTML, XML, and more
- Once loaded, email attachments and electronic documents keep a link to their original native versions to view underlying formulas, notes, etc.

State-of-the-Art Security

Security settings allow you to determine who can access what and when:

- Access to information can be controlled by user at the database and field level to minimize conflict and ensure confidentiality
- FYI™ server software adds password protection, comprehensive logging, firewall security, and leading public/private key encryption technology

Flexible Reporting

Produce perfectly formatted, customized reports for fact review and trial preparation:

- Report Wizard creates numerous reports on the fly—witness kits, case chronology, document lists, Q&A sets, annotations, production history reports, and more
- Advanced report-writing tools exist for more complex reporting needs

Programmable

Stretch the software to meet unique needs of your case, firm, or clients with the Concordance Programming Language (CPL):

- Utilize numerous pre-existing CPL scripts delivered with the software for greater control and flexibility

Straightforward and Easy to Use

Straightforward installation and configuration has Concordance 2007 up and running in no time:

- Supports small- to large-case needs with single to multiple, concurrent-user access
- Easy pull-down menus, clear documentation, online tutorial, and context-sensitive help, support all levels of users
- New customizable user workspace delivers shortcuts to frequently used Concordance functions, web sites, or company "intranet"

System Requirements

- Microsoft® Windows® 2000/XP Professional/Windows 2003 Server
- Pentium® 300 MHz or higher processor
- 128 MB of RAM
- 20 MB of available hard disk space
- 800 x 600 display, 256 colors
- Windows-compatible mouse
- CD-ROM drive
- Computer should also meet the suggested requirements for the operating system being used
